

REMARKS

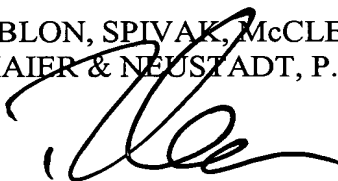

As the Examiner is aware, this application is part of the Motorola "bulk filing" applications. Special procedures have been approved for these cases with regard to IDSs, etc. Examiner Baumeister and SPEs Chaudry, Lee and Flynn are well aware of this program should the Examiner have any questions. Of course, he may also call the undersigned.

The present claims have been amended in accordance with the rejection under 35 U.S.C. 112 by removing the term "a monocrystalline metal nitride layer overlying the amorphous oxide material."

As mentioned in the last response, Applicants have met with the above-mentioned Examiner and SPEs to discuss this series of cases and the prior art. As a result of these discussions and in view of the present Office Action it is now considered that the above amendments to the claims place them in condition for allowance, possibly leaving only a double patenting issue.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,  
MAIER & NEUSTADT, P.C.
